

Testimonials

- Abacus Investigations & Security

New York, NY

"As a leading private investigation firm in the North East United States, reputation, productivity and professionalism is everything. **IPdragnet serves as the intellectual work-horse of our organization**, classifying all our proprietary information. It saves us both time and money by securely tracking our data in such a way that is clearly discernable, instantly identifying relationships between investigational records that normally would take us hours to do! Its ability to **seamlessly relate records to each other**, along with its ability to link images and files for evidence tracking, have proven to be critical tools in our efforts. In addition, **IPdragnet's comprehensive reporting tools deliver the professional style results** needed to meet our clients' strict demands."

- Gibney, Anthony & Flaherty, LLP

New York, NY

"As Head of Technology for one of the most reputable anti-counterfeiting law firms in the United States, it's important that our legal team utilizes the most reliable and comprehensive tools available. **IPdragnet is a solid enterprise application** that's easy to use, easy to customize, and works seamlessly with our infrastructure. Its scalable architecture and professional features provide the technological foundation our legal team requires. The technical support offered is both professional and personal. **We've used other applications in the past, but none match the performance and stability of IPdragnet.**"
